ISO 20121 Sustainability Policy

FERRARI CHALLENGE EUROPE 2021
On April 10th – 11th | May 1st – 2nd | May 29th – 30th
June 19th – 20th | August 27th – 29th | September 11th – 12th
November 4th – 7th

The Ferrari Challenge Europe, founded in 1993, is the longest running single-brand championship in the history of the Maranello-based company.

The 29th season of the European championship consists of seven rounds, from April to November, hosted by seven racetracks: Autodromo Nazionale di Monza (Italy), Red Bull Ring (Austria), Automotodrom Brno (Czech Republic), Circuit Ricardo Tormo (Spain), Nürburgring (Germany), Circuit de Spa - Francorchamps (Belgium) and Mugello Circuit (Italy).

Ferrari Group has defined its sustainability strategy focused on creating value and achieving sustainable growth. The strategy is based on the following five pillars:

1) EXCEEDING EXPECTATIONS
   Drive technological innovation while pursuing excellence in design and craftsmanship to fuel the passion of our customers and fans.

2) PROACTIVELY FOSTERING BEST PRACTICE GOVERNANCE
   Maintain Ferrari’s corporate governance and risk management systems aligned with best practices to ensure an ethical business conduct while providing superior and sustainable returns to our shareholders.

3) BEING THE EMPLOYER OF CHOICE
   Provide an inclusive, educational and inspiring work environment to unleash everyone’s passion, creativity and talent

4) REDUCING ENVIRONMENTAL FOOTPRINT
   Increase our environmental awareness to continuously set and implement related programs and actions.

5) CREATING AND SHARING VALUE WITHIN THE COMMUNITY

Encourage strategic partnerships and the creation of positive externalities for all stakeholders.

In continuing our commitment to sustainable management of the value chain, it has been decided to adopt a sustainable management system for Ferrari Challenge Europe in the clearest form, direct and internationally recognized, achieving ISO 20121 certification, the international standard for the sustainable events management.

This decision leads to the implementation of the values promoted by the standard itself and by this policy, such as:

- transparency,
- integrity,
- inclusiveness,
- accessibility,
- legacy,
- responsible management,
- participation,
- continuous improvement.

The GT Sports Activities Corporation intends to further enhance the Ferrari Challenge Europe from the point of view of sustainability stimulating every possible action in the short, medium and long term to reduce environmental impacts and, at the same time, enhancing the social and economic impacts produced by the Championship. This includes an important attention for involvement of all stakeholders (employees, suppliers, circuits, consultants, drivers, team / dealers, guests, sponsors, media and the local community).

With this in mind, Ferrari S.p.A. - GT Sports Activities Corporation, team that manages the Ferrari Challenge Europe, is committed to:

- Respect the basic principles of sustainable development and contribute to the achievement of the goals set by the United Nations (UN SDG-Sustainable Development Goals);
• Design the championship taking into account the principles and values listed above (transparency, integrity, inclusiveness, accessibility, legacy, responsible management, participation and continuous improvement);
• Raise awareness and involve all stakeholders around environmental, economic and social sustainability issues;
• Minimize waste and promote circular economy;
• Manage properly the natural resources consumption;
• Influence suppliers more towards sustainable choices and behaviour;
• Promote comprehensive and update information on sustainability issues;
• Improve direct and indirect impact on the national and international economic pattern;
• Ensure a proper access to people with disabilities;
• Ensure compliance with current regulations about environment protection, work health and safety.

The ISO 20121 sustainability policy of the Ferrari Challenge Europe is implemented through a specific plan of actions to ensure the effective and durable sustainable reduction of environmental impact, the enhancement of social benefits and economic impact.
